

ANNUAL REPORT

1964

MISSOURI STATE PARK BOARD

Big Oak Lake in our Big Oak Tree State Park contains 23 acres of water. It was opened for fishing July 1, 1963. It was stocked with bluegill, black bass and channel cat.

CHAIRMAN
EVAN SHORE
CASSVILLE

The Honorable Warren E. Hearnes
Governor of Missouri
Executive Office
State Capitol Building
Jefferson City, Missouri

Dear Governor Hearnes:

VICE-CHAIRMAN
CONN C. WINFREY
LEBANON

It is with pleasure that I submit to you the Annual Report of the Missouri State Park Board for the year ending December 31, 1964, for your information and consideration.

RUSSELL H. STOCKSDALE
LIBERTY

This report covers all of the activities of this department, such as maintenance, engineering, historical, archaeological, recreation, information, fiscal and nature museums, all of which contribute to the outdoor recreation facilities available in our Missouri State Parks.

ROBERT M. WOLPERS
POPLAR BLUFF

The function of the Missouri State Park Board is to acquire, preserve and develop for the inspiration, use and enjoyment of the people of Missouri and her many guests a balanced system of areas of outstanding scenic, historical and recreational importance.

R. I. COLBORN
PARIS

It is indeed a privilege to convey this information to you.

RUBY GREEN
KIRKSVILLE

Respectfully submitted,
MISSOURI STATE PARK BOARD

Lee C. Fine
Director of Parks

You are Always Welcome in Missouri's Scenic State Parks

Structures in State Park System	29

The function of the Missouri State Park Board is to acquire, protect, develop and interpret for the inspiration, use and enjoyment of the people of the state a well-balanced system of areas of outstanding scenic, recreational and historic importance. These areas shall be held in trust in the state park system as irreplaceable portions of Missouri's natural and historic heritage, as well as provide nonurban recreation opportunities for the state's citizens and visitors that are normally beyond the responsibility of the state's political subdivisions. In determining these policies, the Board is cognizant of the interest of the public, the legislature and the state administration.

It is the desire of the State Park Board to expand the present state park system so that no citizen of Missouri will be over a one hour's drive to a state park, and intensify existing facilities in order to better serve the residents of Missouri as well as to further encourage tourism in Missouri.

We are at the present time working with several other state departments in the development of a comprehensive Outdoor Recreation Plan projecting to the year 2000, as required by the Bureau of Outdoor Recreation, so that Missouri will be eligible to receive matching monies from the Federal Land and Water Conservation Fund for development, acquisition and planning. Missouri's share will be approximately \$2½ million to be divided among state agencies, counties and cities for outdoor recreation facilities.

The School of Forestry of the University of Missouri has undertaken appropriate research with the cooperation of the State Park Board to determine the recreational impact on the state parks of Missouri. It is hoped that the results of this research will yield information that will help us to better understand the response of the site to varying types and intensities of recreation. With this information in hand, we will be in a position to forecast future losses and to recommend policies and procedures for the maintenance and construction of state park facilities.

The State Park Board continued to use the labor of Training School Boys from Boonville and the labor of adult inmates from the Fordland Honor Camp. The labor of both groups has been very satisfactory to the State Park Board.

According to the number of boys and adult inmates who return to the parks to review their work when they are released, they have found that there is dignity and self-satisfaction in doing work which is productive and meaningful. Their self-concept and feeling of self-worth are enhanced, as well as the state parks, by the work they do in the parks. The potential of this program can be even greater with year-round work camps in selected parks.

The new swimming pool in our Bennett Spring State Park opened July 1, 1964. This pool, wading pool, showers and dressing room facilities were built with revenue bonds sold by the Missouri State Park Board.

From the U. S. Corps of Engineers we have accepted areas on Table Rock, Lake Wappapello and Pomme de Terre with a license agreement. The development of these areas is not complete as of January 1, 1965. We are also negotiating for areas suitable for outdoor recreation on the Stockton and the Kaysinger Bluff Reservoirs. The last two areas will fill a void in south and west central Missouri. Kaysinger Bluff will supply water and related outdoor recreation for the citizens living in the greater Kansas City area.

The first revenue bonds totaling \$600,000 were sold with an interest rate of 3.66% on April 1, 1963. The following projects have been completed:

- a. Rental Cabins at Thousand Hills State Park
- b. Swimming Pool at Bennett Spring State Park
- c. Swimming Pool at Big Lake State Park

The dining lodge and motel at Montauk State Park is under construction and the completion date will be approximately July 1, 1965.

I. NATURALIST PROGRAM

Nature museums were maintained in four parks during the 1964 season. A Naturalist was in charge of each museum and was responsible for the evening movie program, nature talks, and hikes.

One new movie projector was purchased and assigned to Washington State Park. Portable outdoor screens were purchased for each of the four museums. Movies pertaining to nature and outdoor recreation were shown on Wednesdays and Saturdays only.

A general program is underway to improve the present museums and to expand the system by adding new museums in the parks with heavy visitation. Expansion will be limited by the availability of proper museum buildings and sufficient funds for employment of seasonal Naturalists.

The following is the 1964 participation in the various activities in the Naturalist Program as compared to 1963:

	1963	1964
A. Meramec State Park		
1. Museum visitors	12,598	10,733
2. Hikes	597	873
3. Movies	1,531	5,350

B. Bennett Spring State Park		
1. Museum visitors	9,907	13,623
2. Hikes	537	728
3. Movies	3,665	2,903
C. Big Spring State Park		
1. Museum visitors	6,986	12,644
2. Hikes	932	578
3. Movies	2,547	3,033
D. Washington State Park		
1. Museum visitors	6,428	5,622
2. Hikes	317	301
3. Movies	0	807

II. INDIAN ARCHAEOLOGICAL PROGRAM

A long-range study program is underway, as pertains to the Indians, to what extent the Missouri State Park Board will develop the interpretation of Indians and archaeology of Missouri. The major developments at this time are as follows:

- A. Van Meter State Park, Lyman Center for Archaeological Research
 1. Visitation — The number of recorded visitors increased from 7,135 to 7,464 and included persons from 36 states, plus the Countries of India and Iran. There were 1,300 visitors for open house on July 26, 1964.
 2. Pease Dome Exhibit Shelter — The building was patched and given one coat of paint. There are now 13 case exhibits and 7 open panel exhibits.
 3. French Pirogue or Dugout Canoe — This excellent relic of the fur trade era has been on exhibit since February, 1964.
 4. Field School — There were 7 students in attendance. Work was done in the vicinity of the new buildings where 15 refuse pits, 2 partial house patterns, and 2 fire basins were excavated.
 5. Publication — A new publication entitled **A Guide to the Exhibits**, by Robert T. Bray, was financed by the Van Meter Park Development Association and sells for 50c each.

B. Washington State Park

1. A seasonal Archaeologist assisted visitors and cared for the petroglyphs. No record was maintained of the number of visitors to the site. A general study was made as to improved methods of caring for the petroglyphs.
2. Also, plans are being developed for improvement of the visitor center with more emphasis on the story of petroglyphs. It is planned to place the new exhibits into use for the 1965 season.

C. Graham Cave State Park

1. Protection for the cave is under study, and preliminary planning for the museum and exhibits has been completed.

III. HISTORICAL PROGRAM

Missouri's participation in the American Landmarks Celebration was administered by the Missouri State Park Board. This observance was part of a world-wide program to better inform citizens of their heritage.

General planning was completed for improvement of the historic records' system. This would be accomplished through appraisal of items on hand to include a dollar value and period of manufacture. An improved system of records, plus marking of items, must be considered as future projects.

A. Arrow Rock State Park

Arrow Rock probably enjoyed its most popular year during the 1964 season. There were five functions worth mentioning.

First, the Country Auction, sponsored by the Friends of Arrow Rock, Inc., was held in June. This event was in the park and has become so popular that it is now an annual affair.

Second, during July and August, the Arrow Rock Lyceum staged a series of plays. This building is adjacent to the park.

Third, on September 19 and 20, the Homes Tour proved very popular and more than 2,000 persons visited the Hall and Bingham Houses.

Fourth, the Dr. Matthew W. Hall House dedication was on October 4, when Mr. Russell H. Stocksdale presented the building to the D. A. R. for their use as a State Chapter House.

Finally, on November 8, the National Park Service presented the Historic Sites Landmark plaque to the Missouri State Park Board and the citizens of Arrow Rock.

Renovation was started in late 1964 on the George Caleb Bingham House. The old cellar has been replaced and much interior work has been accomplished. The project should be completed near the middle of 1965. The Dr. Matthew W. Hall House was completely renovated during 1964. The decoration and furnishings for the interior were provided by the D. A. R. The side yard west of the Tavern was landscaped, and a decorative fence was placed in the corner near the building. The Museum Records' System has been established, although individual items have not been marked.

General improvements planned for Arrow Rock include more sidewalks, removal of signs, repair stone gutters, remove evidence of concrete, repairs for the Tavern, and historic research.

B. Boonslick State Park

Preliminary research has been initiated and interpretive displays have been planned.

C. Civil War Battle of Lexington State Park and Anderson House

Visitation at the Anderson House reached a new high of 14,376 persons. This is the first year since 1961 that has indicated such a large interest. The year 1961 was the centennial observance and re-enactment of the Civil War Battle.

An interior decoration program is underway to improve and upgrade the furnishings of the various rooms. Nothing will be done which later may be damaged during building renovation.

D. First Missouri State Capitol

Although no appropriation was available, normal preventive maintenance was followed, such as painting, roof repairs, and clean up. Mr. Booker Rucker, Historic Archaeologist, cleared the rear area of backfill which remained from previous trenching. Photographs were taken and some mapping was completed.

The First Missouri State Capitol Restoration Commission selected Dr. Homer Clevenger as Chairman. There were three meetings during the year with accomplishments in several areas. One hundred additional copies of the Restoration Plan were purchased. Recommendations were made to the Missouri State Park Board to

request \$335,000 from General Revenue during the 73rd General Assembly.

E. Mark Twain Birthplace Memorial Shrine

Attendance at the Mark Twain Birthplace Memorial Shrine has shown a steady decline since the dedication in 1960. It is hoped that this trend will reverse and level out at approximately 10,000 visitors per year.

There were 26 acquisitions which included 87 items. Fourteen new books were added to the library. The library is fast becoming one of the most complete on Mark Twain and is of value for serious research.

An exhibit was prepared for the cultural display in the Missouri Pavilion at the New York World's Fair. Included was the manuscript for the first publication of Tom Sawyer.

F. General John J. Pershing Boyhood Home Memorial Shrine

Visitor attendance indicates a steady increase but the overall potential has not been reached. The total figure of 1,709 for 1964 is very poor for a historic site situated only one mile from a major cross state highway.

There are several things which should be accomplished to improve visitor attendance, such as additional signs on U. S. Highway 36, a brochure or shrine folder, and a program of contacts with schools in the area.

G. Harry S. Truman Birthplace Memorial Shrine

Without doubt, the most important and desirable occurrence has been the large increase in visitation. The increase from 14,846 in 1963 to 18,921 in 1964 is largely due to the new outdoor advertising signs erected by civic groups in Lamar.

These figures are accurate and include only those persons signing the visitor register, and not individuals on the grounds and passing in cars before or after operating hours.

H. Watkins Mill State Park

The park and mill were closed for the season of 1964 and probably will remain closed for several years.

Restoration, under contract with McCullough Construction Company of Excelsior Springs, began on September 1, 1964.

Watkins Woolen Mill, which is the prime reason for a state park, will be renovated first and \$28,500 has been obligated for that purpose. All exterior masonry work has been completed as well as topping out the smokestack. Drainage around the mill has been corrected. New roof material has been purchased, plus window frames and sashes, but has not been installed.

An Archaeological Report detailing the power plant was prepared by Mr. Booker Rucker. This report is on file with the Missouri State Park Board.

The Advisory Committee on Watkins Mill State Park met one time in October. This was primarily an orientation session but they recommended that the park be not open for 1965.

IV. RECREATION AND PUBLIC INFORMATION

A. Overnight Camping

Overnight camping continued to increase rapidly with 698,311 overnight campers during 1964, an increase of 44,981 overnight campers over 1963. Meramec State Park was high with 105,674 overnight campers and Lake of the Ozarks State Park was next with 101,905.

The increase in overnight tent and trailer camping over the past ten years is as follows:

YEAR	CAMPER DAYS	(CUMULATIVE) PERCENT CHANGE
1955	78,700	
1956	105,170	+ 34
1957	159,360	+103
1958	196,827	+150
1959	295,634	+276
1960	404,771	+414
1961	482,532	+513
1962	554,717	+605
1963	653,330	+730
1964	698,311	+786

Steps are being taken to organize the overnight camping areas into individual campsites to provide more privacy and enjoyment for the campers and to protect the camping areas from overuse. Camping areas are being enlarged in hopes of providing camp sites for the ever increasing number of campers.

B. Organized Group Camping

Organized group camping continues to be one of the popular activities in our state park program. The number of camper days remain about the same from year to year, as the facilities are leased by non-profit organizations for most of the available days throughout the camping season. Any increase or decrease in the number of camper days depends upon the number of campers and staff each sponsoring agency brings to camp.

C. Park Movies

The state park motion picture entitled "The State Parks of Missouri" has proven to be very popular. Since its release in January, 1958, it has been projected 1,842 times to an audience of 139,615. For the year of 1964, it was projected 183 times to an audience of 18,356.

The new film entitled "Camping For Everyone," which is in full color and sound, was released to the public on January 19, 1962. All photography for the film was taken by our staff photographer in our state parks. It has been well received by schools, family tent camping, group camping, and civic organizations. Since its release, the film has been projected 310 times to an audience of 35,072. For the year of 1964, it was projected 77 times to an audience of 13,590.

D. Public Information

In an effort to acquaint the people of Missouri with their state parks, we had on display the State Park Board Exhibit during the Kansas City Boat, Sports and Travel Show and the Midwest Sports Show in St. Louis — each with an attendance exceeding one hundred thousand. The Missouri State Park Board Exhibit is one of the most popular booths at these two Shows. The public is very much interested in obtaining all of the information possible about the facilities and features in our state parks.

The total distribution of literature by the Missouri State Park Board includes 200,000 general brochures and approximately 25,000 individual folders on parks and historic shrines annually. These are distributed through personal contact, mail, and travel organizations. The Director and various staff members made numerous talks and prepared articles for park, recreation, and historic publications.

ORGANIZED GROUP CAMPING INFORMATION FOR 1964

Park	Camp	Camper Days		Total	No. of Agencies
		Summer	Fall & Spring		
LAKE OF THE OZARKS	Clover Point	10,529	1,737	12,266	17
	Rising Sun	9,027	1,556	10,583	9
	Pa He Tsi	8,052	767	8,819	7
	Hawthorn	14,130	165	14,295	1
	Pin Oak	9,488	812	10,300	8
	Red Bud	2,342	632	2,974	20
CUIVRE RIVER	Cuivre	2,502	649	3,151	3
	Sherwood Forest	12,981	4,865	17,846	14
	Derricotte	11,993	6,575	18,568	11
	Frenchmans Bluff	8,596	1,128	9,724	13
KNOB NOSTER	Bob White	11,550	1,257	12,807	15
	Shawnee	9,701	1,580	11,281	14
ROARING RIVER	Smokey	7,257	1,158	8,415	15
CROWDER	Grand River	8,138	1,816	9,954	22
MARK TWAIN	Clemens	3,135	1,344	4,479	15
PERSHING	Blue Bird	<u>2,681</u>	<u>412</u>	<u>3,093</u>	<u>10</u>
TOTAL		<u>132,102</u>	<u>26,453</u>	<u>158,555</u>	<u>194</u>

The following listed organizations are a typical representation of the varied 194 different organizations using the organized group camp facilities:

Missouri Baptist General Association
 Missouri District of the Lutheran Laymen's League
 Missouri Association of Christian Churches
 Diocese of Missouri Protestant Episcopal Church
 Missouri Conference of Seventh-Day Adventist
 Reorganized Church of Jesus Christ of Latter-Day Saints
 St. Louis Baptist Women's Missionary Union
 Presbyterian Churches
 Congregational Christian and E & R Churches
 Church of Christ Bible Camp
 Mennonite Youth Camp
 Methodist Churches
 Evangelical and Reformed Churches
 Ozark Bible College
 Pentecostal Young Peoples Association
 FFA, state-wide
 Junior Farmers Association
 4-H Clubs, state-wide
 Central Missouri Rural Recreation Association
 Missouri Farm Bureau Federation
 Jewish Community Centers Association
 (Camp Hawthorn)

Boy Scouts of America, Lake of the Ozarks Council

Heart of Missouri and Becky Thatcher Girl Scout Councils

Kansas City District Council of Camp Fire Girls, Inc.
 Camp Fire Girls, Inc., Jennings, Mo.

University City Public Schools
 Clayton Public Schools
 St. Louis City Public Schools

The following are United Fund Agencies:

American Red Cross
 United Cerebral Palsy Association
 Sherwood Forest Camping Service, Inc.
 Kansas City Assn. of Neighborhood Houses
 Young Women's Christian Assn. of St. Louis

V. FISCAL

A. Property Inventory

The Missouri State Park Board property inventory was maintained up to date during the year of 1964. An actual physical inventory was made at 28 parks and 3 historic shrines. Spot-checking of field property records was done in other parks. Spot-checking of field records is done to insure good property record maintenance in the field.

B. Utilization of Surplus Property

The program for better utilization of surplus property, which was begun in 1960, was continued in 1964 with noticeable savings. This was done in conjunction with the continued service area cleanup program to make the service areas more presentable and safe.

C. Concession Inspection Program

The Concession Inspection Program initiated in 1960 was continued in 1964. The inspector periodically checked concessions for cleanliness and adherence to contract regulations as well as to Missouri State Board of Health Regulations. This has been an effort that encouraged the concessionaires to maintain cleanliness and sanitary conditions at a level complimentary to the Missouri State Park Board and the concession operation.

STATE INCOME FROM STATE PARKS FOR 1964

Park	Concessions	Overnight Campgrounds	Organized Group Camps	Misc.	Total

STATE INCOME FROM STATE PARKS

STATE PARK APPROPRIATIONS

STATE PARK ATTENDANCE

VI. ENGINEERING AND CONSTRUCTION

The following construction projects were undertaken and completed during the year of 1964 under the supervision of the Chief Engineer:

- A. Bennett Spring State Park
 - 1. Constructed new swimming pool by contract
 - 2. Ripped stream bank and built 2 diversion dikes below spring and ripped stream bank below bridge near dining lodge
- B. Big Lake State Park
 - 1. Constructed new swimming pool, bathhouse, and sewage lagoon by contract
 - 2. Drilled new well and installed new pump and chlorinator
- C. Confederate Memorial State Park
 - 1. Constructed septic tank and sewer lines at Superintendent's residence
 - 2. Replaced road culvert and rebuilt 300 feet of road and gravel-surfaced same
- D. Cuivre River State Park
 - 1. Completed 70% of dam construction
 - 2. Cleared 100% of lake
 - 3. Completed new dining lodge at Camp Cuivre
- E. Graham Cave State Park
 - 1. Cleared proposed service area, 2,000 feet of road right-of-way, and 3 parking lots
- F. Knob Noster State Park
 - 1. Constructed 2 waste stabilization lagoons and sewer lines to same
- G. Lake of the Ozarks State Park
 - 1. Constructed 3 lagoons and sewer system in Camp Hawthorn
 - 2. Constructed 1 new lagoon and sewer system for camping area
- H. Lake Wappapello State Park
 - 1. Completed construction and all utilities to new shelter house
 - 2. Constructed new sewer system and lagoon at camping area
 - 3. Started construction of new modern comfort station, sewer system, and lagoon in marina and picnicking areas

- I. Meramec State Park
 - 1. Constructed an additional 11 stalls to present trailer court making a total of 20 trailer stalls
- J. Montauk State Park
 - 1. Started construction by contract of new dining lodge and adjoining cabins and motel
- K. Pomme de Terre State Park
 - 1. Bought by bid and erected by state forces 52-by-24-foot Armco metal service building
- L. Thousand Hills State Park
 - 1. Completed construction of 5 new rental cabins by contract
- M. Trail of Tears State Park
 - 1. Installed complete filtering system at well No. 1 at camping and picnicking areas to meet State Board of Health standards
- N. Van Meter State Park
 - 1. Completed new dam built by rental equipment and state equipment and forces
- O. Wakonda State Park
 - 1. Erected 52-foot steel tower and 5,000-gallon overhead storage tank
 - 2. Drilled new well and installed new pump by contract

VII. MAINTENANCE

Following is a list of the major projects accomplished by the maintenance crews during 1964:

- A. Alley Spring State Park
 - 1. Constructed 1 wood louvered latrine
 - 2. Installed cyclone-type fence around LP gas tank
 - 3. Constructed 6 table shelters in camping area
 - 4. Replaced porch on old red mill
 - 5. Rebuilt fences damaged by floods
- B. Arrow Rock State Park
 - 1. Applied drop siding to pump house, installed new submersible pump, and built wood trellis to shield LP gas tank
 - 2. Painted 4 latrines

C. Bennett Spring State Park

1. Reroofed Superintendent's residence, replaced guttering and downspouts, and painted interior
2. Reroofed hotel, replaced porch, constructed new cement steps and walk, replaced guttering, and treated floor
3. Treated dining lodge for termites, painted rest rooms and kitchen, installed guttering, refinished floors, enclosed basement stairway, and repaired windows
4. Rescreened and repaired porches on 7 rental cabins
5. Installed 22 new air conditioners in rental cabins
6. Constructed 4 new louvered latrines
7. Remodeled 2 rental cabins
8. Constructed retaining wall and new parking area for park concessionaire
9. Constructed 22 cement ovens
10. Set 1 new 1,000-gallon LP gas tank
11. Replaced 600 linear feet of LP gas lines
12. Replaced 460 linear feet of sewer lines
13. Removed 160 dead trees and transplanted 500 small trees
14. Replaced 2 slide chutes in playground area
15. Refinished all wood furniture in rental units
16. Rewired all electric circuits in dining lodge and store
17. Built supply room and office quarters in service building
18. Installed chlorinator on water system
19. Started remodeling of park concessionaire's quarters
20. Painted exteriors of 3 buildings

D. Big Lake State Park

1. Installed new aluminum storm doors on dining lodge and painted kitchen
2. Reroofed 1 building
3. Remodeled kitchen in 1 rental cabin and tiled floors in 2 rental cabins
4. Painted exterior of 1 building and interiors of 8 buildings

E. Big Spring State Park

1. Repainted exteriors of 8 buildings and interiors of 4 buildings
2. Seal-coated floors of 8 rental cabins and dining lodge

3. Repainted all playground equipment, tables, and benches
 4. Applied finish coat on knotty pine paneling of 3 rental cabins
 5. Installed new electric wiring and entrance boxes in 12 rental cabins and replaced outside electric entrance cable from meters to all cabins
 6. Rebuilt concession boat dock
 7. Completed sewage improvements from spring bathhouse and 1 rental cabin
 8. Installed cyclone-type fence around 4 LP gas tanks
 9. Replaced fireplaces in shelter house
- F. Big Oak Tree State Park
1. Removed underbrush around edges of camping area
 2. Removed several dead trees
- G. Civil War Battle of Lexington State Park
1. Installed new roll roofing on Anderson House
 2. Painted porches on Anderson House
 3. Constructed porch on Curator's residence
 4. Graveled various park driveways
- H. Confederate Memorial State Park
1. Enlarged picnic area and reset 35 creosote posts
 2. Painted interiors and exteriors of 2 latrines and exterior porch on residence
 3. Cleared vegetation from lake banks and set shade trees in picnic area
- I. Crowder State Park
1. Constructed 1 new louvered latrine
 2. Painted exteriors of 9 buildings
- J. Cuivre River State Park
1. Installed cyclone-type fence around 5 LP gas tanks
 2. Cleaned approximately 10 miles of right-of-ways along park roads
 3. Cleared underbrush on approximately 5 miles of power lines
 4. Continued the construction of park foot trails
 5. Dismantled 2 group camp buildings and salvaged materials

6. Relined interiors of 3 group camp buildings with plywood
 7. Rewired electric circuits of 3 buildings
 8. Painted 5 buildings
 9. Reroofed 20 buildings
- K. Fort Zumwalt State Park
1. Constructed 1 new louvered latrine
 2. Installed cyclone-type fence around 1 LP gas tank
 3. Installed underground gasoline tank and pump
 4. Painted 2 latrines
 5. Enlarged picnic area and camping area, built new picnic ovens and garbage can holders
 6. Installed new park entrance gate
- L. Graham Cave State Park
1. Painted park boundary trees or markers
 2. Erected portion of boundary fence
- M. Johnson Shut-ins State Park
1. Enlarged camping area and picnic area
 2. Improved foot trail to shut-ins
 3. Trimmed pine grove and road right-of-ways
 4. Painted all camp shelters, picnic tables, interiors of 3 buildings, and exterior of 1 building
- N. Knob Noster State Park
1. Transplanted 97 trees 6 feet in height or over to public use areas in park
 2. Painted exteriors of 25 buildings
 3. Reroofed 8 buildings
 4. Installed cyclone-type fence around 3 LP gas tanks
 5. Enlarged primitive camping area from 1,000 to 1,500 person capacity, including an additional $\frac{1}{2}$ mile of vehicle trail
- O. Lake of the Ozarks State Park
1. Raised 6 buildings and replaced foundations
 2. Removed dead trees in group camp areas and public use areas

3. Repaired or replaced screen doors and screens on group camp buildings
 4. Painted 1 water tank
 5. Constructed 2 new boat docks to replace old ones
 6. Installed new plywood and tile on kitchen floor of mess hall, installed new dishwasher and additional electric circuits
 7. Reroofed 5 buildings
 8. Dismantled 1 group camp cabin and salvaged all usable materials
 9. Replaced pump house and constructed new group camp cabin
 10. Installed new pressure water pump in mess hall and landscaped exterior of same
 11. Replaced approximately 0.3 mile of wood rail fence, removed and replaced earth covering underground water storage, and installed fence
 12. Constructed rodent-proof food storage area in mess hall and replaced showers in 2 group camp cabins
 13. Screened bathhouse at Public Beach No. 1 and erected woven wire fence at beach area
 14. Painted exteriors of 6 buildings, added 1 room to residence, constructed 1 wood louvered latrine, repaired 60 picnic tables, painted 195 picnic tables, and constructed 6 rock water fountains
 15. Completed major maintenance to 5 sewer treatment plants
- P. Lake Wappapello State Park
1. Constructed 50 concrete pads for picnic tables in camping area
 2. Painted interiors of 5 buildings
- Q. Lewis & Clark State Park
1. Rebuilt numerous park picnic tables
 2. Began painting and reroofing of various buildings
- R. Mark Twain State Park
1. Rebuilt pump house at main park well
 2. Constructed cyclone-type fence around 4 LP gas tanks
 3. Insulated riser pipe on water storage tank
 4. Repaired and repainted 80 picnic tables

5. Constructed 2 new parking areas, spread 450 yards of gravel for roads and parking areas, and set 475 creosote posts around parking areas
6. Replaced broken screen doors in group camp
7. Reroofed 1 building and painted or creosoted 3 buildings

S. Meramec State Park

1. Developed and built roads for 60 new campsites
2. Constructed 2 new wood louvered-type latrines
3. Painted 355 picnic tables and 8 buildings
4. Insulated and completely refinished the interior of service building, including installation of gas heat
5. Installed new gas heating systems in 2 double-unit rental cabins
6. Insulated and sealed 2 pump houses
7. Installed 1 automatic chlorinator on water system
8. Completely remodeled interior of Assistant Superintendent's residence and installed gas furnace
9. Began remodeling on 1 double-unit rental cabin

T. Montauk State Park

1. Remodeled porches, built concrete floors and steps on 2 rental cabins
2. Installed new floor and new air conditioner in 1 rental cabin
3. Completed remodeling of rental cabin No. 7
4. Remodeled Superintendent's residence
5. Constructed 2 new wood louvered-type latrines

U. Pershing State Park

1. Constructed 1 new wood louvered-type latrine
2. Repaired and painted interior and exterior of open shelter house
3. Sealed lower portion of interiors of group camp cabins
4. Varnished interior, painted exterior, installed window sash balances, and varnished tables and benches in group camp mess hall

5. Completed minor repairs to interior of residence and installed new hot water heater
 6. Felled dead trees in park, cut up for firewood, and replanted replacement trees
 7. Repaired and painted picnic tables
- V. Pomme de Terre State Park
1. Constructed ½ mile of camping area, cleared campsites, and constructed 1 new wood louvered-type latrine
 2. Cleared and removed underbrush in 15 acres of ground along marina and beach road
 3. Constructed 2,100 linear feet of water lines
- W. Roaring River State Park
1. Applied new siding and painted exteriors of 3 buildings
 2. Reroofed 1 building, refinished interiors of dining lodge and kitchen, installed steel windows and new steps at hotel, and painted hotel porch floor
 3. Repaired 5 drinking fountains, repainted signs in camping areas, and added additional electric outlets in camping areas
 4. Repaired overflow bridge and extended spillway
 5. Made improvements to Bass Lake
 6. Poured new walkway at hotel and installed guard and hand rails
 7. Constructed protective fencing around 3 LP gas tanks
 8. Cleaned park nature trails
- X. Round Spring State Park
1. Constructed new cattle guard and repaired fences
 2. Painted picnic tables, playground equipment, and trim on service building
 3. Constructed new picnic ovens and repaired old ones
- Y. Sam A. Baker State Park
1. Constructed wood lot
 2. Constructed 2 new wood louvered-type latrines
 3. Added 500 linear feet of water lines and 1 new drinking fountain

4. Constructed 41 new camp ovens and 60 new picnic tables
5. Graveled $\frac{1}{4}$ mile of new camp roads, plus graveling other park roads
6. Painted and stained interiors and exteriors of dining lodge, comfort station, and 8 rental cabins
7. Varnished hardwood floors of 8 rental cabins
8. Started clearing of underbrush and cleaning of debris along roadway and public use areas

Z. Table Rock State Park

1. Constructed 9 new drinking fountains
2. Extended ramp on boat launching ramp
3. Set 52 new picnic tables on cement platforms, reset 2 metal latrines, and set 150 new creosote posts
4. Constructed 2 new well houses
5. Extended camping area No. 2, added 15 new campsites, and cleared underbrush between lake and campsites
6. Patched approximately 2 miles of roads
7. Planted 113 trees
8. Painted interiors and exteriors of all latrines, including modern rest room in campground
9. Painted interior of service building and exterior trim on residence

AA. Thousand Hills State Park

1. Completed construction of camping area No. 3, including road, latrine, water and electric lines, and trailer hookups
2. Painted exteriors of 5 buildings
3. Constructed 2 rental boat docks and 1 concession boat dock
4. Remodeled lunch room building at boat dock location and completed construction of walks and sea wall in this area
5. Constructed sidewalks and steps, planted trees and shrubbery at rental cabins
6. Fenced 1 LP gas tank

BB. Trail of Tears State Park

1. Erected oil house building

2. Dismantled 2 old buildings and salvaged usable materials
3. Graveled new parking area and set creosote posts
4. Constructed 46 concrete ovens and bases
5. Cleaned and painted 2 water tanks and 1 tower
6. Painted 3 buildings, park picnic tables, and floats for swimming area
7. Fenced 1 LP gas tank
8. Completed construction of third shelter

CC. Harry S. Truman Birthplace Memorial Shrine

1. Installed new Cello-glass material on back porch of shrine building
2. Repainted large sign
3. Repapered portion of living room, repainted kitchen, and installed new floor runner in shrine building

DD. Van Meter State Park

1. Reroofed and painted exteriors of 3 buildings
2. Maintained and lifted landscaping stock for planting in other state parks

EE. Wakonda State Park

1. Erected new entrance sign
2. Installed 820 linear feet of water lines
3. Constructed new pump house and installed new chlorinator therein
4. Constructed new service building
5. Enlarged camping area, picnic area, parking area, constructed 1 new drinking fountain, and set 150 new creosoted posts
6. Painted all picnic tables

FF. Wallace State Park

1. Remodeled porch of residence for park office
2. Continued expansion of new camping area, including construction of 45 new concrete ovens and placement of 25 additional garbage can holders
3. Constructed 1 new wood louvered latrine

4. Cleared approximately 0.5 mile of road right-of-way to new camping area
5. Planted 600 trees
6. Repaired and painted all picnic tables and table shelters

GG. Washington State Park

1. Assembled and painted 20 picnic tables
2. Constructed 45 concrete picnic ovens
3. Constructed 1 new louvered latrine
4. Poured concrete pads for 24 garbage can holders
5. Painted ceilings in 4 rental cabins, rescreened porches, and painted portion of dining lodge
6. Sealed, insulated, and installed gas heater in service building
7. Enlarged camping area and added 15 new campsites
8. Painted interiors of 2 modern rest rooms, interiors and exteriors of 6 latrines, lookout shelter seats, playground equipment, and 105 picnic tables
9. Hauled earth to terrace ground over reservoirs
10. Graveled park roads and set creosote posts
11. Cleaned interiors of 2 water reservoirs

HH. Watkins Mill State Park

1. Installed and vented heating system, fixed water softener, basement windows, and downspouts of residence
2. Cleaned and painted interiors of 7 rooms
3. Remodeled small storage building into a temporary workshop and painted garage
4. Removed several small buildings and cleaned others for material storage
5. Cleaned yard of residence, cemetery area, 2 pastures, mill area, cabin sites, and 2 ponds of rubbish and cut 400 dead trees
6. Cleaned yard of Mount Vernon Church and installed fence
7. Erected approximately 8,500 linear feet of fence and removed approximately 2 miles of cross fence and hedge posts
